SCIP-VTE-2	Surgery Patients Who Received Appropriate Venous Thromboembolism Prophylaxis Within 24 Hours Prior to Surgery to 24 Hours After Surgery	88% of 136 patients(2)	100%	93%	93%

**Footnote Legend****0 patients: No patients met the criteria for inclusion in the measure calculation.**

1. The number of cases is too small to reliably tell how well a hospital is performing.
2. Measure reflects the hospital's indication that its submission was based upon a sample of its relevant discharges.
3. Rate reflects fewer than maximum possible quarters of data.
4. Suppressed for one or more quarters by CMS.
5. No data are available for publication from the hospital for this measure.

**PN-7 is reported by Flu Season ONLY**

**Reporting Period for 30-Day Mortality and Readmission Outcome Measures:** Third Quarter 2007 through Second Quarter 2010 Discharges
